PREFACE

THE publishers, in presenting this directory, wish to direct attention to the residential and manufacturing advantages enjoyed by the City of Windsor and environs, as a result of which there has been a marked growth in population and an enviable industrial expansion.

Windsor is the most southern city in Canada which means a favored climate, moderate in winter and tempered in summer by river and lake breezes. Situated on the banks of the Detroit River there are unexcelled opportunities for boating, while pleasant side trips to popular parks and summer resorts are easily available. Windsor shares with Detroit in some of nature's most famous beauty spots.

The city holds a strategic position for the shipments of manufactured products, and is thus participating in a phenomenal industrial development. It is both the natural water gate and land gate of Canada.

With five trunk lines of railways, Canadian Pacific, Grand Trunk, Michigan Central, Wabash and Pere Marquette, it has exceptional facilities for transportation, while its location is an added advantage, affording equalized freight rates for east and westbound shipping. During the season of navigation Manufacturers in Windsor are able to enjoy a low rate on deliveries to the various ports along the chain of great lakes.

Windsor's residential attractions and manufacturing advantages constitute, therefore, a sure and firm foundation for future greatness.

In itself it is a city of well-paved, shady avenues, peopled by residents whose civic pride is manifested in attractive private homes as well as in the beautifying of public grounds and the adornment of street intersections with flower beds.

With various steamship lines, easy access to Detroit places of amusement, moonlight and starlight rides almost nightly during the summer season, Windsor might properly bid for fame as the Canadian Venice. Certainly it has come to be recognized as a privilege to live in Windsor.

But Windsor is more than a delightful residential city. It is taking rank as a giant industrial city, which means that its people are prosperous and progressive. Every Windsorite is a natural-born optimist and is willing to argue that he has good reason for confidence in the city of his abode.

Windsor is able to boast of many fine schools and churches. It owns its own waterworks and has a plentiful supply of pure water at rates that are believed to be the cheapest, not only in Canada, but in North America. It has seven of the strongest chartered banks in Canada.

The progress the city is making is briefly indicated by the fact that it has doubled its population in ten years and is getting on the average of one new factory a month.

Its location in regard to United States manufacturers has a threefold appeal: Saving of time in reaching the branch plant from the head office; facilities for bringing in raw material from the United States at the lowest freight rates; mildest climate in Canada and amusement opportunities that make for a contented labor community.

Windsor has two city-owned factory districts. The first tract of about forty acres was opened up about three years ago and is now all taken up. A new industrial area of about 23 acres is being utilized at present for new firms that wish to build factories. Six acres have been sold off so far.

Both factory districts are tapped by the Essex Terminal Railway, which connects with all five trunk lines, affording facilities for shipping in and out, the charges being absorbed in the freight rate.

The city has a liberal industrial policy, all firms being treated alike. There has been absolutely no favoritism shown, no matter how big the plant. The city grants tax exemptions for ten years and also supplies free water and free light for ten years. These concessions are granted to firms that agree to employ not less than 25 hands.

Of recent months Windsor and vicinity have gained prominence as the steel and auto centre of Canada. The bulk of the Canadian auto firms are located in Windsor, Walkerville and Ford City, while Windsor, Walkerville and Ojibway, where the United States Steel Corporation is to build a \$20,000,000 plant, boast of important plants for the manufacture of steel and allied products.

The city's population in 1910 was 17,534. In 1911 it stood at 18,220, in 1912 it was 19,877, and in 1913 it went up to 22,080. These are the official returns by the assessment commissioner. The estimated population at present is 25,000.

In Windsor and adjoining municipalities there are now upwards of 160 industries. Last year the value of building permits in Windsor alone exceeded \$1,000,000. The monthly permits for 1914 are running ahead of the same period for last year.

The customs collections of Windsor are an impressive story of how and why the city is going ahead. The figures for 1908 were \$938,904. There was a steady advance for each succeeding year, the collections for 1912 being \$2,094,648, and for the fiscal year of 1913, \$3,980,000.

The City of Windsor is named after the royal residence in England. It was incorporated as a village in 1854, and as a city in 1892.

The name for the enterprising town, of Walkerville was derived from its founder, the late Hiram Walker, who established a distillery there. This has grown to be a mammoth industry. Many large manufacturing firms are established there.

Ford adjoins Walkerville on the east. It is less than two years old, but is already a thriving community, having the immense Ford Motor Co. plant as its principal industry.

Sandwich, which joins Windsor on the west, is the county town. It is almost entirely taken up as a residential section with many quaint attractions.

To the south and west of Sandwich is the new municipality of Ojibway, the site chosen by the U. S. Steel Corporation for its big Canadian works.

The estimated population of the five municipalities, which are practically one, stretching for more than seven miles along the river front, is 35,000, but the prediction is freely made that it will be 100,000 by the end of the next five years.

THE WORLD'S BEST PIANO

HEINTZMAN & CO.

Piano of the Great Artists.
The Piano of Tetrassini and Ruffo.

People of Culture in all parts of Canada Eulogize the Piano of
Ye Olde Firme of Heintzman & Co., Limited.

ITS BEAUTIFUL TONE

Tested out by the most critical and exacting methods, the new Concert Grand Piano of Heintzman & Co. is proven to be a piano of tremendous tonal command, and of superb and elastic musical ingredients.

Its rich, sound singing tones; its brilliant trebles and rich organ-like bass is what delighted Tetrassini and Ruffo, and influenced both artists each to order one of these pianos, the former for her studio in Legano, Switzerland, and Ruffo for his studio in Rome, Italy.

This piano is the essence of delight to the senses, and possesses a tone which will always live because it is protected by ingenious construction against the ravages of time.

AN EXTRACT — TAKEN FROM TORONTO GLOBE OF JULY 28, 1914.

Showing the number of hands employed per week and the number of Pianos made per week by the following firms:

HEINTZMAN & Co.	300	60 per week
Mason & Hirsch	225	35 per week
Gerhard Heintzman	180	40 per week
Newcombe & Co.	125	25 per week
Nordheimer	100	20 per week

PROGRESS EVER THE WORD

Surely there is no question of doubt now as to which firm is the largest manufacturer of pianos in Canada, and when we say that HEINTZMAN & CO. PIANOS are endorsed and purchased by more of the world's greatest artists and Canadian musicians than all other Canadian Pianos put together; that the HEINTZMAN & CO. PIANOS have taken more "Gold," "Silver" and "Bronze Medals," "First Prizes," and "Diplomas" than all other Canadian Pianos put together; that HEINTZMAN & CO. PIANOS are the best made, being up-to-date in style and finish, with a richer singing quality of tone and much more durable than any other piano in Canada, the other statements are just as true as the article that appeared in the Globe of 1904. Since then the output has grown to 85 pianos per week, which shows conclusively the great demand for the Heintzman & Co. Piano over all others.

Old instruments taken in exchange and full value allowed.

HIGHVIEW PARK

REASONS WHY HIGHVIEW PARK INVESTORS WILL MAKE MONEY INVESTING HERE

1. Its close proximity to the business centre of Ojibway with a direct car line on Felix Ave.
2. Matchett Road is the main feeder to the new steel city and Highview Park is at the beginning of this main thoroughfare.
3. Men who have made fortunes in investing in the right places tell us that Highview Park is the cream of Ojibway property. To anyone who is looking for a high-class investment, we suggest the placing of their money in this very desirable close-in property.
4. As a high-class residential section, this subdivision is unequalled in or around Ojibway and Windsor, and remember, it is in the corporate limits of Sandwich, and all the modern improvements which are being installed will be equal to those of any city, as municipal and private interests have combined to make this property the most perfect around Ojibway and well worthy of its great future as being Canada's steel centre.
5. Investors in real estate in Gary, Carnegie and Birmingham made fortunes and we offer you this opportunity.
6. Actual operations have started at Ojibway by the building of the railroad, so be among the first to select your lots. Take our auto to see the property to-day, or phone for appointment.
